About me	Passionate recent graduate looking for a job to help advance my knowledge of programming, and how to work in such an environment. I have experience in the C family of languages. Besides that, I also have experience with HTML/CSS and some lighter knowledge of JavaScript and PHP. I am passionate and willing to learn, while experiencing new opportunities presented to me.
Skills	**C#** Beginner – I am able to do most of the beginner requirements for this language as I had the most experience with it. **C++** Novice – While not as advanced in C++ as I am in C#, I am able to do some basic tasks and am more advanced in C++ whilst using the Raylib library. **HTML/CSS/JavaScript** Beginner – Decent knowledge of HTML and CSS, while my knowledge of JavaScript is not as advanced, I do have some experience in using it. **PHP** Novice – Basic knowledge of the PHP language, experience in building things such as a Login/Sign In system. **Unreal Engine** Beginner – Beginner knowledge of the Unreal environment and making more basic games in it.
Education	**Fimek – Novi Sad – Graduate computer scientist (Grade 9,45)** 2018 – 2022 **BIT Srednje škole– Novi Sad – Computer technician** 2014 – 2018
Languages	**English** C1 – Cambridge Certificate in Advanced English (CAE)
Courses	**C++ Fundamentals, GameDev.tv** December 2022 – January 2023 **Game Dev Bootcamp, Nordeus Hub** November 2021 – December 2021
